## **DETAILED ACTION**

### *Allowable Subject Matter*

1. Claims 1-10 allowed. While the use of a phenolic resin with applicant's claimed molecular weight is known in the art (Betzner et al. '436), the prior art does not disclose a method wherein a phenolic comprises 10-40 percent by weight monomer and 60-90 percent by weight polymer having an average molecular weight of 200-2000. Furthermore, no disclosure in the prior art would motivate one of ordinary skill in the art to vary the monomer and polymer weight percentages.
